Real Estate Growth Platform — Proposal

16 AUGUST 2026

Understanding Your Requirement

This proposal separates what you pay once (platform template, selected modules, data migration, any bespoke enhancement) from what you pay every month (the platform's ongoing hosting, support, and account management, sized to your team). Every figure on the following pages traces to a single governed calculation — nothing here is a placeholder or a hand-typed number.

What This Delivers

CAPABILITY	ONE-TIME PRICE
Platform template	AED 12,000
Lead Capture Meta Google Ads	AED 3,000
Whatsapp Lead Notification	AED 2,500
Auto Distribution Manual Reassign	AED 2,000
Call Logging Manual Entry	AED 2,000
Attendance In App Checkin	AED 3,000
Daily Reporting Pack	AED 2,000
Multi Agent Access Control	AED 3,500
Property Portal Feed	AED 4,000

ODOO 19 COMMUNITY — VERSION LOCK. A DIFFERENT ODOO VERSION IS A SEPARATE ENGAGEMENT.

Scope & Acceptance

REQUIREMENT	ACCEPTANCE CRITERION
Lead capture	Inbound lead creates a CRM record within the platform, visible to an assigned user.
Property/listing management	A property record can be created, listed, and its status updated by an authorised user.
Commission & deals	A closed deal computes commission per the configured scheme and is visible on the deal record.
Multi-agent access control	Agent A cannot view Agent B's commission or deal records; record-rule enforced, not UI-hidden only.
Reporting & dashboards	Configured reports return live data from the modules above.

What Is Not Included — Named Directly

Not "coming soon," not bundled under a different name. Each has a stated alternative.

CAPABILITY	STATUS	ALTERNATIVE OFFERED

Client Dependencies & Assumptions

- [PRV] Source data for migration is clean and exported in a supported format by the data-quality sign-off date.
- [PRV] A named client contact is available for discovery and UAT.
- [PRV] Client holds any third-party accounts required for integrations in scope.

Change Control & Acceptance

Any change to scope after acceptance is a standalone change-control instrument — a new signed line item, not a verbal variation to this document.
