Real Estate Growth Platform — Proposal

16 AUGUST 2026

Understanding Your Requirement

This proposal separates what you pay once (platform template, selected modules, data migration, any bespoke enhancement) from what you pay every month (the platform's ongoing hosting, support, and account management, sized to your team). Every figure on the following pages traces to a single governed calculation — nothing here is a placeholder or a hand-typed number.

What This Delivers

Client Dependencies & Assumptions

- [PRV] Source data for migration is clean and exported in a supported format by the data-quality sign-off date.
- [PRV] A named client contact is available for discovery and UAT.
- [PRV] Client holds any third-party accounts required for integrations in scope.

Change Control & Acceptance

Any change to scope after acceptance is a standalone change-control instrument — a new signed line item, not a verbal variation to this document.
